Hello,

This message is for who would get offers from Sapcle Technologies which is a very sure fraud company located in UAE and Chennai, India. Still this company CEO not cleared employee salaries and recruiting many resources to onsite for free services. This suggestion is do inquiry before accepting offer from this company.

Regards,

More over to previous post , Sapcle Technologies company CEO name Shyju Kammadan, He enjoys luxury life with employees salary in and around middle east and not sure which are all countries this company has business but definitely he gave and not sure still giving big sad to his employees who all are all helps his company to grow higher. HR resources which are working from Chennai also they are also responsible for this as they don't reveal this secret to when they approach resources about job opportunity.

Hi Ravi,

Present I don't colleagues who are all working there, still 5 months salary is due from that company. Don't know the current situation. Just do more questioning with them.

Thanks,

Aravind

I agree. I got a call for Dubai location mentioning their client (a MNC). I asked them the name of their client for which they are recruiting, they refused to reveal the name. This is very unprofessional, you are recruiting a candidate and sending out of India, he deserves to know which firm he is going to work. These things are suspicious.
